EDUCATION

Digipen & SIT Singapore - Bachelor of Science with Honours in Computer Science in Interactive Media and Game Development	AUG 2022 - OCT 2026
Digipen, Redmond, WA - Bachelors of Science in Game Design and Computer Science	MAY 2024 - AUG 2024
Temasek Polytechnic - Diploma in Game Design and Development	MAR 2017 - APR 2020

PROJECTS & EXPERIENCE

SBS Transit Ltd — *Application / System Engineer* **MAY 2025 - APR 2026**

IWSP and Capstone Project. Collaborated with another intern to design and develop an e-learning training and assessment app that was deployed on LMS and mobile for DTL operational staff. Designed Proof-Of-Concept using Figma. Created 3D Assets using blender. Developed interactive components with expo, a react native framework that I have learnt on the job. After this project was implemented, there were 80% less incidents that occurred and received 90% positive feedback from both management and station staff.

Exodus series — *Game production projects with custom engine development (2023, 2024)*

Projects collaborated with designers and programmers. I worked on a custom made C++ game engine editor for both games. Developing the Input Manager, Asset Manager and Video Player. Enabling full mouse and keyboard functionality as well as drag and drop functionality with various asset types reflected in the editor and video player component to support cutscenes for the designers ease of use.

Limitless SG — *Game Developer* **OCT 2019 - MAR 2020**

Final Year Project and Internship. Collaborated with the client and four other students to create a digital visual novel game in Unity to raise awareness of depression. Gained experience in Unity, rapid prototyping and using data driven concepts. Conducted public playtesting during Beyond the Label, a public event. Previously published Application on App store, Google play having around 5k downloads with an average of 4 star review and eventually assisted in porting the application onto Web (itch.io)

LEADERSHIP & ACTIVITIES

SBS Transit Ltd — *Application / System Engineer* **MAY 2025 - APR 2026**

I took up the role of a project manager, created the timeline and managed the other intern I was working with. Was the main point of contact between the technical team and my superior. Presented the applications to the head of the DTL and other head of departments.

Singapore Armed Forces — *Armour Specialist* **JUN 2020 - APR 2022**

Served as a Platoon Sergeant, managing around 40 soldiers and conducting training for my company which contains 120 soldiers.

SKILLS

TECHNICAL: C, C++, C#, Typescript/JavaScript, Python, Kotlin, Microsoft Visual Studio Code/Community, Expo, Android Studios,

GAME: Unity, Unreal Engine, Godot, PlayCanvas, **DESIGN:** Figma, Axure, Photoshop, ClipChamp, Audacity, Blender
